

INDOCERT is a nationally and internationally operating, certification body established in India. It is accredited by National Accreditation Body (NAB), Government of India, as per National Program for Organic Production (NPOP). In the field of organic farming, INDOCERT also functions as a platform for training, awareness creation, information dissemination and networking.

Training

INDOCERT has a training cell which helps in spreading the message of Organic agriculture. The targeted participants are :

- Lead farmers
- NGOs interested in spreading the message of organic farming and clean environment
- Processing industry
- Traders and Exporters
- Government officials

Training is provided both In-house as well as On-site training

- **Organic Farm Inspector Training**
- **Organic Farm Inspector courses**
