About Indian Society of Mycology and Plant Pathology

Green revolution resulted in the sustainability of food grain production leading to self sufficiency. During the period of Green revolution, farmers were practiced to use high yielding varieties, hybrids, indiscriminate use of pesticides and fertilizers. There was no doubt, that the productivity was increased. However, the indiscriminate usage of pesticides resulted in ground water pollution, accumulation of pesticide residues in the food stuffs, development of resistance among plant pathogens and pests. Hence, to mitigate the emerging issues in the management of plant diseases, the Indian Society of Mycology and Plant Pathology (ISMPP) was established during 1971. ISMPP is fully devoted to disseminate scientific advancements in plant disease research through its official publication namely Journal of Mycology and Plant Pathology, Review of Plant Pathology and ISMPP Newsletter. The society annually organizes the conferences and symposia for facilitating interaction among researchers and faster exchange and dissemination of the advances in plant disease research. It is with the same objective that the 36th Annual Conference and Symposium on **“Challenges and Management Approaches for Crop Diseases of National Importance – Status and Prospects”** is being organized during February 12-14, 2015 by Tamil Nadu Agricultural University under the aegis of Agricultural College and Research Institute, Madurai.

About Tamil Nadu Agricultural University (TNAU)

TNAU with its 11 constituent colleges, 7 affiliated colleges, 36 research stations and 14 farm science centres (KVK's) is a leading agro technology provider in India and TNAU alumni enjoy global recognition. The University offers 13 undergraduate, 40 graduate and 26 doctoral degree programs. It is fully committed to Agricultural Education and Research in Tamil Nadu and supports the State Agricultural Department for delivering research output. Till 1946, the Agricultural College and Research Institute, Coimbatore was the only Institute for Agricultural Education for South India. In 1958, it was recognized as a Post-graduate Centre leading to Masters' and Doctoral degrees. TNAU always holds in high esteem the motto, “Till, Toil and Triumph” in all activities concerned with Agricultural Research and Education.

About the Temple City of Tamil Nadu

Madurai, the ancient temple city of Tamil Nadu, India, famous for classical Tamil literature and culture is located at the southern part of the State and the Agricultural College and Research Institute is situated in this historical city. The famous temples of Goddess Meenakshi and the two of the six abodes ('ArupadaiVeedu') of Lord Muruga (Thirupparankundram) and (Pazhamuthirsolai) are the religious landmarks of Madurai. The hill resort, Kodaikanal with its unique salubrious climate is 100 km from the city. "Kanniyakumari famous for the sunrise, sunset and the Swami Vivekananda rock" and The holy temple at "Rameshwaram" are 200 kms away from the temple city.

SWAMI VIVEKANANDA ROCK MEMORIAL

About the Venue

Agricultural College and Research Institute, Madurai (AC & RI) is a constituent college of Tamil Nadu Agricultural University, Coimbatore situated at 12 km away from Madurai city on Madurai-Trichy National Highway. It is 5km away from Mattuthavani Integrated Bus Station, Madurai. This is the second biggest campus of TNAU accommodating 650 under-graduates, post-graduate students and Ph.D. scholars. This college was established in the year 1965 and this National Symposium forms part of Golden Jubilee celebrations of the college too. The college is situated at the foothills of the magnificent edifice, Yanamalai on the western side. The verdant and idyllic setting a favorite picnic spots for the pupils of schools and colleges in and around Madurai. The spirit of beauty and the quest for knowledge always reign supreme in the campus. The picturesque campus also has a water tank which is a heaven for birds and is an undeclared sanctuary for peacocks.

Connectivity

Madurai city is well connected with surface and air transport. Domestic flight services are also available to major cities in India and International air services to Malaysia, Singapore, Srilanka and Dubai.

Themes and Technical Sessions

- ❑ Biodiversity and Biosystematics
- ❑ Plant Microbe Interaction, Omics and Genetic Engineering Applications
- ❑ Molecular Diagnostics of Plant Diseases
- ❑ Fungicides/Bactericides - A Global Perspective from Industries
- ❑ Bio-Inoculants and Biocontrol agents
- ❑ Impact of Climate Change on Plant Diseases
- ❑ Disease Complex / IDM Approaches
- ❑ Regulatory and Policy Issues in Plant Pathology
- ❑ Food Mycology
- ❑ Industrial Linkages / Extension Plant Pathology

(Oral presentations in each session will be adjudged for awards. Minimum of four oral presentations is required for the award competition).

Panel Discussion

- ❑ Emerging disease problems in high value crops and their management
