Maximum temperature is expected to be around 27 – 29 °C and minimum temperature is expected to be around 21 - 23 °C. Morning relative humidity is expected to be around 90 percent and evening relative humidity is expected to be around 70 - 80 percent. Average wind speed is expected to be around 16 – 20 km per hour. The wind direction will be north east.

Agro Advisory

Crop	Stage	Advisory
General		Farmers are requested to download and utilize the agricultural based mobile apps suggested by TNAU (TNAU AAS, Meghdoot and DAMINI).
Rice	Main field	The prevailing weather condition favors leaf folder incidence. If leaf folder symptoms found (folded leaf, white scrape on leaf) spray Cartap hydrochloride 50 % SP @ 400 g/acre or Flubendiamide 20% WG 50 g/acre in 200 liter of water after rain.
Banana		Provide support with wooden poles to avoid lodging of tree due to wind.
Cattle	Cow	Due to cool night temperature, the livestock particularly the young ones should be kept under shelter with heating equipments to prevent the incidence of pneumonia.

SMS advisory

Provide support with wooden poles to avoid lodging of tree due to wind.
