Morning relative humidity is expected to be around 60 - 70 percent and evening relative humidity is expected to be around 30 percent. Average wind speed is expected to be around 10 - 16 km per hour. The wind direction will be west.

Crop	Stage Advisory					
Gei	neral	Farmers are requested to download and utilize the agricultural based mobile apps suggested by TNAU (TNAU AAS, Meghdoot and DAMINI).				
Rice	Main field	By utilizing dry weather, fertilizers and pesticides can be applied. Apply 32.6 kg Urea and 8.4 kg of MOP should be applied after 35 days after transplanting for 1 acre rice field. The prevailing weather condition favors Thrips infestation. To control the Thrips damage in transplanted rice, apply Thiamethxam 25WG @ 40g/ acre.				
cotton		Due to prevailing weather condition there are chances of cotton green leaf hopper infestation. To control spray thiamethxam 25 WG 0.6 gram/litre or imidacloprid 17.8 SL 0.6 ml/litre				
Cattle	Cow	Before monsoon ensure that cows and buffaloes were vaccinated against food and mouth disease.				

SMS advisory

Farmers are requested to download and utilize the agricultural based mobile apps suggested by TNAU (TNAU AAS, Meghdoot and DAMINI).

Director TRRI, Aduthurai
