TNAU celebrates GIS Day 2025

AEC&RI, Coimbatore celebrated GIS Day 2025 with a seminar on “Discovering the World through GIS,” featuring insightful talks by eminent speakers and experts in the field. Dr. A. Raviraj, Dean, delivered the Lead Talk on GIS in Water Management, emphasizing the significant role of GIS in groundwater exploration, monitoring aquifer conditions, and supporting scientific decision-making for sustainable water resource management.

Shri. V. Thirunavukarasu, IFS, Principal, CASFOS, Coimbatore, presented the Lead Talk on GIS in Forest Management. He highlighted the application of GIS in forest fire prediction and control, wildlife tracking, reserve forest planning, and biodiversity conservation.

The Lead Talk on GIS in Environment Management provided an overview of the growing research trends, scientific studies, and environmental monitoring advancements supported by GIS technology.

As part of the celebration, awards were presented under two categories: the Map-Based Research Storytelling Contest and Outstanding Research Contributions in the field of GIS, recognizing the innovation and excellence demonstrated by students and young researchers.

The event showcased how GIS has become a transformative tool across natural resource management, environmental analysis, and scientific research.
