‘Farmers should adopt latest techniques’
Festival offers opportunity to keep abreast of developments

GREEN SHOTS: Collector S. Jayandhi taking a look at the exhibits at a special expo held as part of the farmers’ festival at Lingamaickenpatti in Karur district on Thursday.

Staff Reporter

KARUR: Farmers festivals connect farmers with recent and emerging technology which would result in increasing the revenue of farmers through increasing productivity and profitability. The festivals would help in realising the cherished idea of Chief Minister Jayalalithaa to increase the income levels of rural people, District Collector S. Jayandhi said at Lingamaickenpatti near Aravakurichi in Karur district on Thursday.

Addressing a farmers’ festival at the village, Ms. Jayandhi observed that the event offered an opportunity for the farmers to keep themselves abreast of the emerging trends, in particular aspects of agriculture. In doing so, the farmers were benefited by access to technology that would reduce their burden and thus besides improving their finances through better returns, she said.

While the first green revolution helped India attain self-sufficiency in food, the second green revolution being ushered in by the State Government would help the farming community take a firm grip over the agro economics, the Collector noted.

Important agricultural aspects such as soil sampling, pulses nursery raising, port tray method of raising nurseries, grading moringa, and such other aspects would be detailed in the farmers festivals.

The farmers could utilise the events to know more about markets, costing, to enhance their benefit out of agriculture, Ms. Jayandhi said. She also disbursed integrated farmers handbook to four beneficiaries, a power tiller worth Rs. 1.10 lakh to an adivasi farmers group, Rs. 10,000 to a farmer who stood first in productivity contest, besides giving away power sprayer to two farmers.

Joint Director of Agriculture M. Deivendran, Pallapattu Town Panchayat president Syed Ibrahim, Assistant Director of Agriculture Kallappathy and officials from sister departments participated in the programme. The Collector also inaugurated an expo as part of the farmers’ festival.
