The Editor,

Sir,

I request that the following message may kindly be published in your esteemed daily:

### **Tamil Nadu Agricultural University conducted Training Programme on Quality Seed Production Techniques in Pulses**

A one day training programme on “Quality Seed Production Techniques in Pulses” was organized and conducted by the Department of Pulses, Centre for Plant Breeding and Genetics, Tamil Nadu Agricultural University, Coimbatore on 04.03.22 in Krishi Vigyan Kendra, Pongalur, Tiruppur District under the National Agricultural Development Programme scheme on “Augmentation of Seed Replacement Rate in Pulses and Oilseeds through Farmers’ Participatory Seed Production (Phase II)”.

Dr. M. Kathiravan, Assistant Professor (SST) welcomed the farmers gathering. Dr. R. P. Gnanamalar, Professor and Head, Department of Pulses, TNAU presented the special address to the farmers and mentioned the production of quality seeds and its importance to increase the production of pulses. Technical address was delivered by the scientists of Department of Pulses, TNAU. Dr. P. Jayamani, Professor (PBG) explained about the importance and procedures to be followed for maintenance of genetic purity in seed production.

Dr. S. Anitta Fanish, Assistant Professor (Agronomy) explained about the various agronomic principles and practices to be followed during seed production in pulses. Integrated Pest and Disease management practices to be followed in pulses were explained by Dr. L. Karthiba, Assistant Professor (Plant Pathology). Dr. M. Kathiravan, Assistant Professor (SST) explained the importance of quality seeds and seed production techniques in pulses.

Finally, Dr. S. Lakshmi, Associate Professor (SST) delivered the Vote of Thanks. About 30 farmers who are undertaking seed production in pulses attended the training programme and got benefitted. Field visit was organized and pest and disease management was explained to the farmers. Scientists of the Department of Pulses made all the arrangements for the successful conduct of the training.
